Gowtham Reddy Syamala

+91 9398101736 | gouthamreddy.117.in@gmail.com | LinkedIn | GitHub

Profile Summary

Data Science graduate skilled in Python, SQL,java, backend development, REST APIs, and ETL pipelines, with experience in Building projects that work in real time automation, data processing, and building reliable applications.

Education

Sathyabama Institute of Science and Technology — Chennai, India
B.E. in Computer Science and Engineering (Data Science) | GPA: 8.0/10 — *Sep. 2022 – May 2026*

Sri Chaitanya Junior College — Khammam, India
Board of Intermediate Education | Percentage: 93% — *Jun. 2020 – May 2022*

Experience

CredInsight — Chennai, India
Software Engineer Intern — *Dec. 2025 – june. 2026*

- Developed and maintained backend components for a live stock insights platform using Python, translating product requirements into scalable, production-ready implementations.
- Built and consumed REST APIs to connect frontend and backend services; collaborated with the team on feature development, code reviews, and debugging to ensure code quality.
- Wrote scripts for data processing and automation tasks; used Git for version control and followed standard development workflows throughout the internship.

Projects

Integrated Flight Safety and Risk Analysis | ***Python, Scikit-learn, Tableau, Plotly*** — 2026

- Developed a predictive risk assessment system that analyzes aviation datasets to identify potential flight safety risks and support data-driven safety decisions.
- Implemented Random Forest and Logistic Regression models to classify risk patterns, achieving **91.2% accuracy** and a **0.88 F1-score** through 10-fold cross-validation.
- Built interactive Tableau and Plotly dashboards to visualize risk scores and analytical findings, helping identify potential safety concerns and support proactive incident prevention.

LLM-Powered Code Reviewer | ***Python, OpenAI API, REST APIs*** — 2025

- Designed and developed an LLM-powered platform that reviews Python and Java code submissions, helping developers identify programming errors and improve code quality.
- Integrated the OpenAI API to analyze submitted code, suggest corrections, and explain errors in context, making debugging easier for early-stage developers.
- Built an automated code-review workflow that delivers context-aware feedback, helping users understand coding mistakes, apply fixes, and streamline the debugging process.

Career Guidance Chatbot | ***Python, Flask, NLTK, Scikit-learn*** — 2024

- Developed an AI-driven chatbot that recommends personalized career paths based on users' skills, interests, and target roles, helping users explore relevant career opportunities.
- Applied Natural Language Processing techniques using NLTK and Scikit-learn to process user inputs and generate career recommendations aligned with their profiles.
- Integrated a rule-based logic layer with the recommendation pipeline to improve interpretability and filter irrelevant suggestions, making career guidance more consistent and understandable.

Technical Skills

Languages: C, Python, SQL, PL/SQL, Java

Backend & APIs: Flask, REST API , OOP, data structures and algorithms,ETL pipelines

Data & Machine Learning: Pandas, NumPy, Scikit-learn, Matplotlib, Plotly, NLP, LLM integration

Tools & DevOps: Git, Jupyter Notebook, Linux

Databases: MySQL, Oracle, MongoDB

Visualization: Tableau, Power BI, Advanced Excel

Certifications

Machine Learning Course – Cognibot

Oracle Certified Foundation Associate – Oracle

Research Publication

An Integrated Flight Safety and Risk Analysis System Using Machine Learning — Mar. 2026

- Presented research on applying machine learning techniques to aviation safety assessment and risk analysis.
- Explored predictive risk assessment to identify potential aviation safety risks and support data-driven decision-making.
- Presented at ICECBE 2026, the International Conference on Research and Innovation in Smart and Sustainable Solutions in Electrical, Communication and Biomedical Engineering, organized by K.S.R. College of Engineering in collaboration with INTI International University, Malaysia.
